About me

I absolutely loved playing with gadgets and computers when I was young. I broke a lot of things and as a result I had to learn to fix them to avoid being scolded. This passion for computers that I had grew stronger with time and led me to learn a lot of things on my own that was outside of what was taught to me at school. I love to constantly learn and help others through what I have learned and I hope that I can be of service to others.

Skills

Python

Unity & C#

C & C++

Java

HTML & CSS & JS

SQL

I am learning new skills everyday. The stats I present may change for the better hopefully!

Education

- Since 2017 Bachelor of Science in Computer Science UT Arlington
Currently enrolled as a Sophomore as of 2018. Expected to graduate by Fall 2021
